生物多様性保全

Conservation of bio-diversity

遺伝子保全 gene
生態系保全 ecosystem
種の保全 species
景観保全 landscape

ヒトは？ Man? → Monoculture of mind

農業の工業化→季節感の喪失
Industrialization of agriculture
→fading out of seasonality in mind
チェーン店の拡大→地域特産物の消失

Expansion of convenience stores
→fading out of local special products and local cultures

異質なものの排除→いじめ
Removal of heterogeneous things
→bully in schools?

Can they image the season of strawberry?

精神（こころ）の多様性保全

Conservation of mind

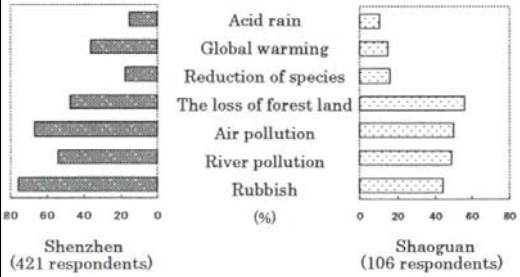

Figure 1. The results of environmental concerns

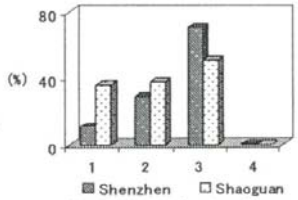

1. Mainly in production forest
2. Mainly in landscape forest to improve life environment
3. Plan for a long period, built non-production forest by classification
4. No need to do the forest rehabilitation

Figure 2. Expectations about forest rehabilitati

衣食足りて礼節を知る
From proverb:
When man satisfies his food,
he can cultivates his courtesy.

Can we talk about the bio-diversity with people in developing countries on the same table?

Monkeys go back
To the forest

Conservation of
bio-diversity

Farmers suffer from
monkeys

Bio-diversity for
monkeys
